## AG0001 Active 80 (100)

Active 80 is a unique product, when added to insecticides, fungicides, herbicides, foliar fertilizers, defoliators and plant nutrients helps to increase their performance and effectiveness substantially. It helps in better control of weeds, insects and other diseases on crops, plants and vegetation when used with pesticides. Active-80 also helps in efficient use of water in irrigation. A product developed after extensive research and tested on various crops, vegetation and fruits (tea, coffee, cotton, paddy, sugarcane, mango, litchi, soyabean, bringal, potato, onion, maize ) by leading Agricultural Universities and Institutions. The results shows significant growth in crop yield when used with different pesticides over pesticides used alone. No phyto-toxicity has been seen and it is safe to be used on crops. Active-80 can also be used for indoor & outdoor plants.

Active-80 can also be used for indoor & outdoor plants.

## AG0004 (ACTIVATOR-WETTER-SPREADER)

Next generation, Eco-friendly & Biodegradable All Purpose Non-ionic Spray Adjuvant Concentrate Active-80 Gold is a unique product made from natural vegetable based surfactants that are eco-friendly and biodegradable. It is an extension of Active-80 with additional features as mentioned below:

- Contains eco-friendly & biodegradable vegetable based surfactants approved by European Union Countries.
- Appropriate for domestic and export oriented crops where use of synthetic surfactants may be an issue.
- Highly concentrated nonionic adjuvant with 80% active ingredients.
- Facilitates uniform mixing of powders, most liquid fertilizers and pesticides. Non-corrosive to spray equipment and prevents clogged nozzles

## AG0005 (SEAWEED EXTRACT)

Activzyme is a natural, eco-friendly and highly effective organic plant growth nutrient derived from seaweed vegetable for use in foliar and soil drench application to improve the plant growth and maximize crop yield. It can be used alone or in conjunction with other crop management inputs on fruits, vegetables, field & plantation crops, indoor & outdoor plants, garden, nursery, lawns, turf etc. Activzyme is compatible with most of the commonly used fertilizers, insecticides, acaricides, fungicides, adjuvants, surfactants except which are of highly alkaline nature. It should not be applied with growth retardants and herbicides. For maximum advantage use at all critical phases of plant growth (early crop stage like seedling/immediately after transplant, prereproductive stage or flowering stage/peak

## AG0008 Activmax 100

Liquid is derived from certified organic oceanic plants through unique microbial metabolic process. An advance technology formulation helps promote plant growth, improves photosynthetic activity, protects from damage due to environmental stress, improves absorption and transport of nutrients inside plant. Safe and nontoxic, it helps to maximize plant growth, yield and profits. A unique combination of Marine algae, Microbial Metabolite, Humic Acid & Amino Acid when used together gives up to 50% more results than using either. It can be used on vegetables, fruit crop, plantation crops, floriculture, lawns, trees and gardens.
