# Do YOU Know Your SKIN?

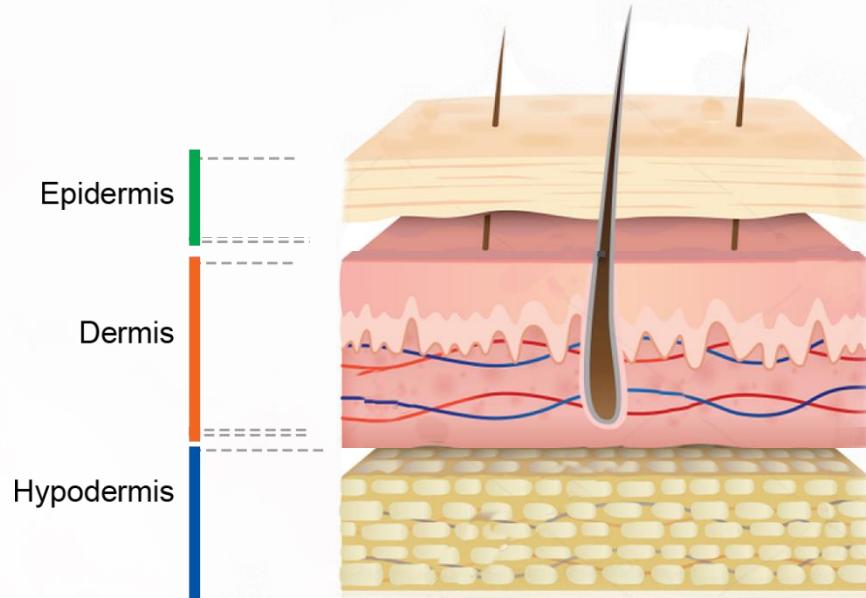

# Lets understand skin

Skin is Second Largest Multilayer Organ

**1.Epidermis**-Functions as a protective shield for the body.

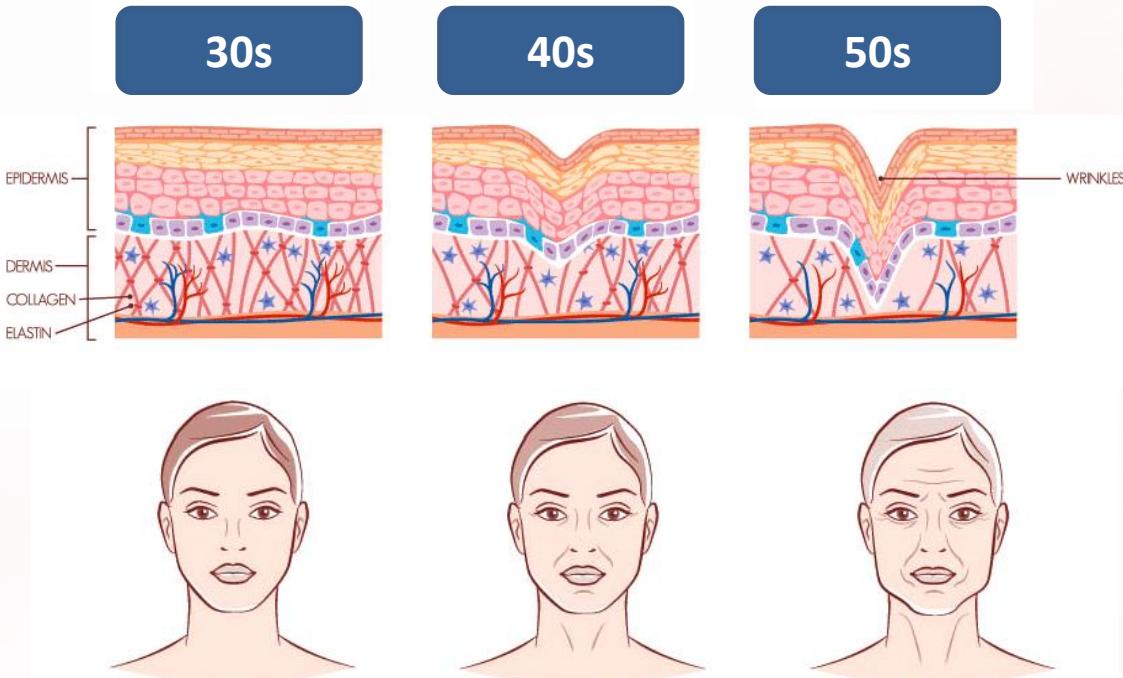

**2.Dermis**- Contains Cells and Tissue,provides strength and flexibility to the skin

**3. Hypodermis**- The subcutaneous layer of the skin contains fat cells

# Epidermis

Epidermis, the protective shield changes with growing age

## With Age & other external factors

- Moisture barrier is compromised
- Skin become vulnerable to dryness
- Itching, redness, stinging, and many other skin care concerns

Do you  
know  
your skin  
type?

# Know your skin type

**1. Dry**

**2. Oily**

**3. Combination**

**4. Normal**

# Factors affecting skin

1. Lifestyle
2. Stress
3. Pollution
4. Diet
5. UV Rays
6. Harsh Chemical Products

# Skin Damages

Pigmentation

Acne

Early Ageing

Dry Lines

Redness

Wrinkles
