SkinCare Training

Beauty is not just a facial issue; serious skin care must include all of your skin from head to toes.

Beauty and skin care go hand in hand, especially for those who want to show off their best with confidence.

Proper skincare is important

because our **skin** is the largest barrier against infection that we have.

Keeping our **skin** healthy and moist helps keep this barrier strong. When the **skin** gets dry or irritated by harsh soaps, cracks in the **skin** can occur.

Cracks in the **skin** make person more prone to infection.

Success Principles by Modicare

The Skin

Epidermis, the outermost layer of skin, provides a waterproof barrier and creates our skin tone

Dermis, beneath the epidermis, contains tough connective tissue, hair follicles, and sweat glands

Hypodermis, deeper subcutaneous tissue is made of fat and connective tissue

FACTORS AFFECTING YOUR SKIN

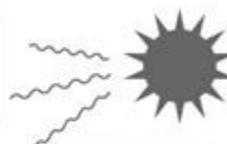

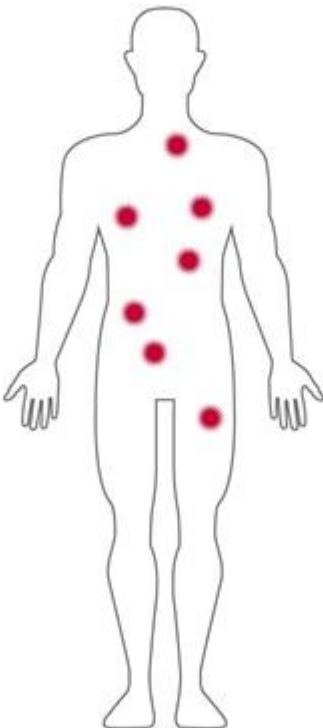

BIOLOGICAL DAMAGE

OXIDATIVE STRESS

Free radicals induced by

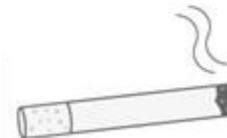

OZONE

NUTRITION
