### RADIATION PROTECTION

Your Safeguard against Harmful Radiation!

# Is Air Pollution the Biggest Challenge ???

THINK AGAIN!

# Air Pollution V/S Radiation

Asthma

Breathing issue

Bronchitis

Nose irritation

HIGH DANGER DANGER DANGER DANGER DANGER DANGER DANGER

Dizziness

Tumor

Heart disease

Infertility

Eye problem

Birth Defects

*Radiations ...The Silent Killer*

# Radiations all around US

*From the mobile morning alarm to the microwave that warms dinner at night, our lives are pivoted on technology*

# Electronic devices emit Radiations which are **harmful** for the human body

**Excessive use of Mobile Phones, Computers, etc and proximity to mobile towers can cause:**

-  Tumour Growth & Cancer in extreme cases
-  Cataract
-  Headaches, Dizziness, Nausea
-  Lower Sperm Count in Men
-  Birth defects due to effect on development of embryo in pregnant women

# Solution for Radiation from Electronic Devices

**While the Research shows..**

Emission of Electromagnetic Rays from electronic gadgets CANNOT be Stopped or Deflected

**BUT We can CHANGE the**

**NATURE OF the RADIATION**

# Launching Enviroglobe

## The Radiation Protector

Solution for **Healthier**  
**Homes & Workplaces**

# Enviroglobe

Safeguards the human body from harmful radiations

**Enviroglobe safeguards the human body from the harmful radiations emitting from**

- server rooms                  • towers routers
- mobile transmission         • mobile boosters

***By changing their harmful nature***

**Does not affect strength of the signal from any communication devices**

**The signal quality or functioning of any electronic gadget is not compromised**

# Enviroglobe

How does it change the nature of harmful radiations

**STEP 1**

**Changes the Nature of Radiations**

Electronic gadgets emit  
**“Constant waves”**  
(Radiation) that **disturbs**  
**the cellular**  
**communication** of the  
body

**STEP 2**

**Enviroglobe converts**  
**the “Constant waves”**  
**emitted from electronic**  
**gadgets in the**  
**“Random form” to**  
**make them compatible**  
**with the body’s**  
**waveforms**

# Enviroglobe

Safeguards the human body from harmful radiations

**Modicare Enviroglobe is a collector item to the art connoisseurs of the world.**  
*Designed by “Artd’inox”, the french word Artd’inox translates to ‘art in stainless steel’*

***Made from a very good quality rust proof steel***

**Has a higher corrosion resistance than regular steel.**

***Excellent resistance to a wide range of atmospheric environments and many corrosive media***

**It comes in a very attractive packaging with a beautifully designed product leaflet inside the box.**

***Experience Luxury & Good Health with Modicare Enviroglobe***

# Enviroglobe

Safeguards the human body from harmful radiations

# Enviroglobe

Radiation Protection Solution for Healthier Homes & workplaces

## ENVIROGLOBE HELPS PURIFY EMR FROM

Mobile Towers

Electrical lines

Servers

Wifi Access Point

## USE IT FOR

Cars

Hotel rooms

Homes

Office

## HOW TO USE

- Place EnviroGlobe in the area that you need to make radiation friendly.
- It covers 300 -350 sq.ft. of area.
- Recharge it in sunlight/ artificial light/ lamp for 15 minutes, once a week.

# How to test that the Product works- Enviroglobe

**Try this simple Hand Strength Test:**

**Step 1:** Lift both your arms and clench your fists on both hands. Ask someone to push one of your hands down with a suitable force while you try and resist. It will be seen that the hand does not go down easily.

**Step 2:** Turn on and off the Electrical switch 3-4 times and repeat the step 1 exercise. Now you should notice a change, you will find that your hand is unable to resist the force applied by the other person and your hand goes down quite easily.

**Step 3:** Place the Modicare Enviroglobe within 10 feet of where you are in the room and repeat the exercise as outlined above in Step 2. You will find that now you are able to resist the force applied on your hand by the other person, similar to what you would have observed in Step 1.

# Conclusion : Hand Test

**In step 1:** Since no barrier in the communication between the brain and the body ,the hand could resist strongly

**In step 2:** After turning on & off the electrical switch points 2-3 times, the Electromagnetic (EMR) radiation / waves from it passed through the body causing interference between the brain to the body communication and created the stress.

**In step 3 :** Now with Enviroglobe within 10 feet range, Enviroglobe changes the nature of electromagnetic radiations emitted from electrical sources , it changes the nature of EMR (constant wave form) to random wave form which does not cause any additional stress to human body.

# FAQ's- Enviroglobe

## What is an Modicare Enviroglobe?

Modicare Enviroglobe is a radiation protection device that can be used at living and working spaces to protect from the harmful effects of electromagnetic radiation emanating from the sources which one has no control over like mobile transmission towers, high tension lines, server rooms, electronic gadgets and other Wi-Fi devices in their vicinity. The globe helps to protect an area of 300 – 350 sq.ft. from the ill-effects of radiations.

## What does the Modicare Enviroglobe do?

It neutralizes the harmful impact of Electromagnetic Radiation (EMR) by “**changing the nature of waves** ”(radiations) emanating from wireless devices, making them harmless to the human body.

# FAQ's- Enviroglobe

## How do we use the Modicare Enviroglobe?

- Place Modicare Enviroglobe at/near the centre of the area that needs to be protected from EMR.
- You can place it in your office, bedroom, and in a hotel room while you're traveling.
- It needs to be recharged after every 1 week by placing the Modicare Enviroglobe under direct sunlight / artificial light under a lamp for 15 minutes.

## What is the life of the Modicare Enviroglobe?

Modicare Enviroglobe will keep on working as long as it is kept in normal indoor environment.

## How do I charge Modicare Enviroglobe?

Keep it charged by placing under sunlight or under a lamp for 15 minutes, once a week.

# FAQ's- Enviroglobe

## What tests have been done to prove Modicare Enviroglobe's effectiveness?

- Modicare Enviroglobe has received the “CE Marking” which declares that the product complies with all applicable European Safety Directives and Regulations.
- It has also been certified as a Green / Eco-Friendly Product by the Singapore Green Building Council (SGBC). In addition, after usage of Enviroglobe, more than 1,000 people have shown an improvement in pulse rate between 4-7% for those who have a high pulse rate ( $> 82$ ). Lower pulse rate indicates lower stress and better health.

# FAQ's- Enviroglobe

## What is Enviroglobe made up of ?

- Modicare Enviroglobe is a patented technology, where a combination of inert materials is used, to generate 'random' waveforms at higher natural frequencies, which 'carry' the 'constant' waves (radiations) from the wireless devices to make it compatible to the human body.

## If We have Enviroglobe, Do we need Envirochip??

- Yes**, Risk of Radiation depends upon your proximity from the source of the Radiation emitting device
- Enviroglobe is especially beneficial in protecting you from EMR from sources where you have no control like Mobile transmission tower, your neighbour's Wi-Fi, server room at your office, high tension wire lines, etc.

Your Safeguard against Harmful Radiation!

# Health Risk due to Mobile Phone Radiation

# INTERNATIONAL Herald Tribune

THE WORLD'S DAILY NEWSPAPER

THE TRIBUNE, NEW DELHI, MONDAY, JUNE 14, 2010

## Delhi & Neighbourhood

### Fear of mobile tower radiation grips Delhi area

NEW DELHI, JUNE 13

Residents in north-west Delhi's Shalimar Bagh are demanding the demolition of a mobile phone tower identified as a health hazard.

**“Exposure to electromagnetic waves generates heat in the body and high levels of radiation can even affect the enzyme system, causing DNA, protein structure members”**

heart patients, particularly those who have pacemakers.

“We also attend to many brain tumour patients who are constantly exposed to electromagnetic radiation,” was added.

## THE TIMES OF INDIA

### Mobile phones a health risk, says govt panel

Calls For Ban On Unsafe Handsets

Durgesh Nandan Jha | TNN

New Delhi: Radiation from mobile phones and towers imposes serious health risks, including loss of memory, lack of concentration, disturbance in the digestive system and sleep disturbances, according to an inter-ministerial committee formed by the ministry of communications and information technology to study the hazards posed by mobile phones.

#### Think Before You Talk

##### Symptoms of Excess

- Burning, tingling sensation in scalp, headache, ringing in ears, fatigue, dizziness, sleep disturbance, palpitation, digestive system affected
- Lack of concentration, increase in reaction time, loss of memory

##### Do's & Don'ts

- Specific absorption rate of handsets should not exceed **1.6 watt/kg**, must be displayed for buyers (SAR)

## THE TIMES OF INDIA

### Indians more at risk from cellphones

Durgesh Nandan Jha | TNN

New Delhi: An eight-member inter-ministerial committee has confirmed that radiation from mobile phones and towers poses a severe health hazard.

Dr R S Sharma, ICMR scientist who represented the health ministry on the committee, said its findings are based on case studies presented by different experts. He added that the recommendations would be used to formulate a national policy and guidelines on electromagnetic frequency radiation for towers.

BODY OF EVIDENCE

increase by a fraction of a degree. The brain blood flow is capable of disposing this excess by increasing the local blood flow and increasing body temperature,” states the report.

# Effect of Radiations

## The reality of wireless world

**Cell phones draw more power and emit more radiation when:**

- Enclosed in metal spaces like elevators, cars, trains etc.
- When there are less number of signal bars

**Even cell phone manuals ask you to:**

- ✓ Keep the device away from your body
- ✓ Text more than talk
- ✓ Talk time should not exceed 6 mins/hour

The electromagnetic field in your home could result in sleepless or restless nights

# Modicare Envirochip

- Neutralizes the harmful effects of radiation emanating from Mobile Phones, Laptops, Tablet PC's and Wi-Fi Routers by changing its wave nature
- Reduces the stress level in the human body & prevents loss of immunity
- Clinical trials conducted on Envirochip prove its efficacy in decreasing pulse rate and improving health
- CE certified

# Certificate issued by **DB Technologies Lab, UK**

- Envirochip does not interfere with the strength of the electromagnetic radiation (EMF) and hence does not alter/interfere with the signal strength of the electronic device on which it is placed.
- Thus there are no call drops or hindrance to the speed/ strength of the signal.

# Modicare Envirochip Application Directions

**Mobile Phone:**  
**One Modicare Envirochip**  
Fix 1 just above the centre of the back panel.

**Tablet:**  
**Two Modicare Envirochips**  
Fix 2 just above the centre of the back panel.

**Wi-Fi Router:**  
**2 Modicare Envirochips**  
Fix just above the centre of the top panel of the device.

**Desktop PC:**  
**Three Modicare Envirochips**  
Fix 1 in the centre of the top panel of CPU and 2 to be fixed at the centre of the back panel of the monitor.

**Laptop:**  
**Six Modicare Envirochips**  
2 to be fixed at the centre of the front panel.  
4 chips- 1 each four corners of the back panel.

# How to test that the Product works- Envirochip

**Step 1.** Lift your hand and clench your fists. Ask someone to push one of your hands down with force while you try and resist it. You will notice that the hand does not Go down easily.

**Step 2.** Now hold your mobile phone (switched on)in one hand and ask your friend to push your hand down with the same force while you resist. Did you notice any Change? You will probably find that your hand goes down easily.

**Step 3.** Now Fix Modicare Envirochip on your mobile phone and repeat the exercise as given above. You will notice that you are able to resist the force just like in 1<sup>st</sup> case.

# FAQ's- Envirochip

## What is the life of Modicare Envirochip?

Modicare Envirochip doesn't have a shelf life, i.e., it will continue working until it remains fixed on a device for which is meant for.

If the chip is taken off and put back on 2-3 times on any new/ existing device, then the adhesive under the chip may wear off and may not stick too well to the external surface of the device.

Therefore, We recommend that if a device is being changed, then the Modicare Envirochip should also be changed.

## What are the materials used inside the Modicare Envirochip?

It is a patented technology, where a combination of inert materials are used which operate at a higher frequency than microwave radiation to become the carrier wave and change the 'constant' nature of microwave radiation to 'random' waves, that are no longer alien to the natural waveforms absorbed by the human body.

# If We have Enviroglobe, Do we need Envirochip??

## Yes !!

- Risk of Radiation depends upon your proximity from the source of the Radiation emitting device
- Enviroglobe is especially beneficial in protecting you from EMR from sources where you have no control

Like Mobile transmission tower, your neighbour's Wi-Fi, server room at your office, high tension wirelines, etc.
