## MG0001 Mighty Guard

Our mobile phone is an inseparable part of us, wherever we are- at office, home or travelling. It holds our chats, e-mails, messages and most personal photos; has a record of our internet browsing history, as well as our passwords and sensitive banking Apps. Now take a moment to consider what happens when it gets stolen, what if someone is listening in on our conversations, or worse, what if connecting to an unsecure leads to our data, photos - our whole life getting hacked?
